
FORGE offline, Theorem 1
LTT, i.i.d.
conformal FNR, Şahin and Mert
$\pi_{\max}$
best threshold at the window's π
FORGE offline, calibration mix
LTT at the estimated prevalence, plug in
fixed threshold, selection parts
δ
best threshold for every mix up to $\pi_{\max}$
FORGE online, Theorem 1b
LTT at the estimated prevalence, upper bound
π of the calibration set
best threshold up to $\pi_{\max}$
